

Peace International School

Grade 7 – Transversal Line

The patterns that are made when a parallel lines are cut by a transversal are really cool to recognise .

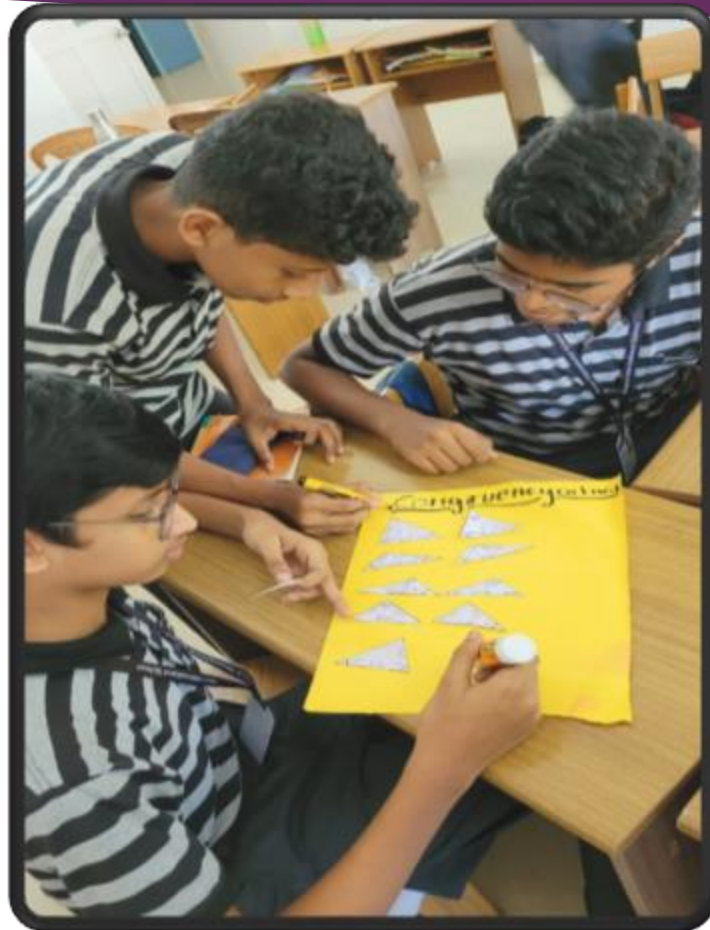

Grade 8- Probability

- ▶ *Looking for a fun, hands on way to bring probability to life.*

Grade 9- Congruent Triangles

- ▶ *It allows the students to compare and contrast to really learn the difference between the different congruence theorems.*

Grade 10- Similar Triangles

The activity kept them interested and provided them with excellent practice.
