

Hands-On Science Adventures

GRADE 1 TO 3

GRADE 1

Let's spot the difference between living and non-living things

Witnessing the magic of seed growing into plants.

Classifying plants into trees, shrubs, climbers, creepers and herbs

Venturing into nature's embrace, where the flora's secrets we trace.

GRADE 3

Listing living and non living things from their surroundings

Embark on nature's journey, where we learn through the whispers of experience.

"Like the tiny seed that grows into a mighty tree, may your curiosity and knowledge continue to blossom. Keep exploring, keep learning, and let the wonders of science guide your journey ahead."

THANK YOU
