

PEACE INTERNATIONAL SCHOOL
DEPARTMENT OF MATHEMATICS
GRADE – 4,5,6,7
SEPTEMBER ACTIVITIES

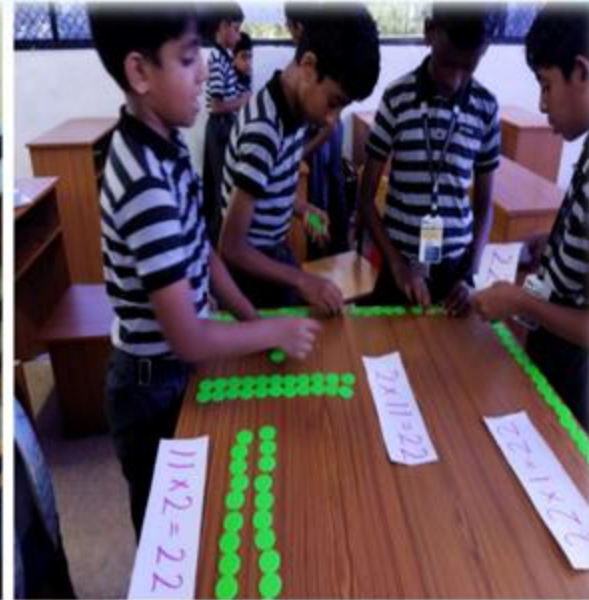

What always has an eye out for entertainment? We find the answer to the riddle, solve the multiplication problems.

4

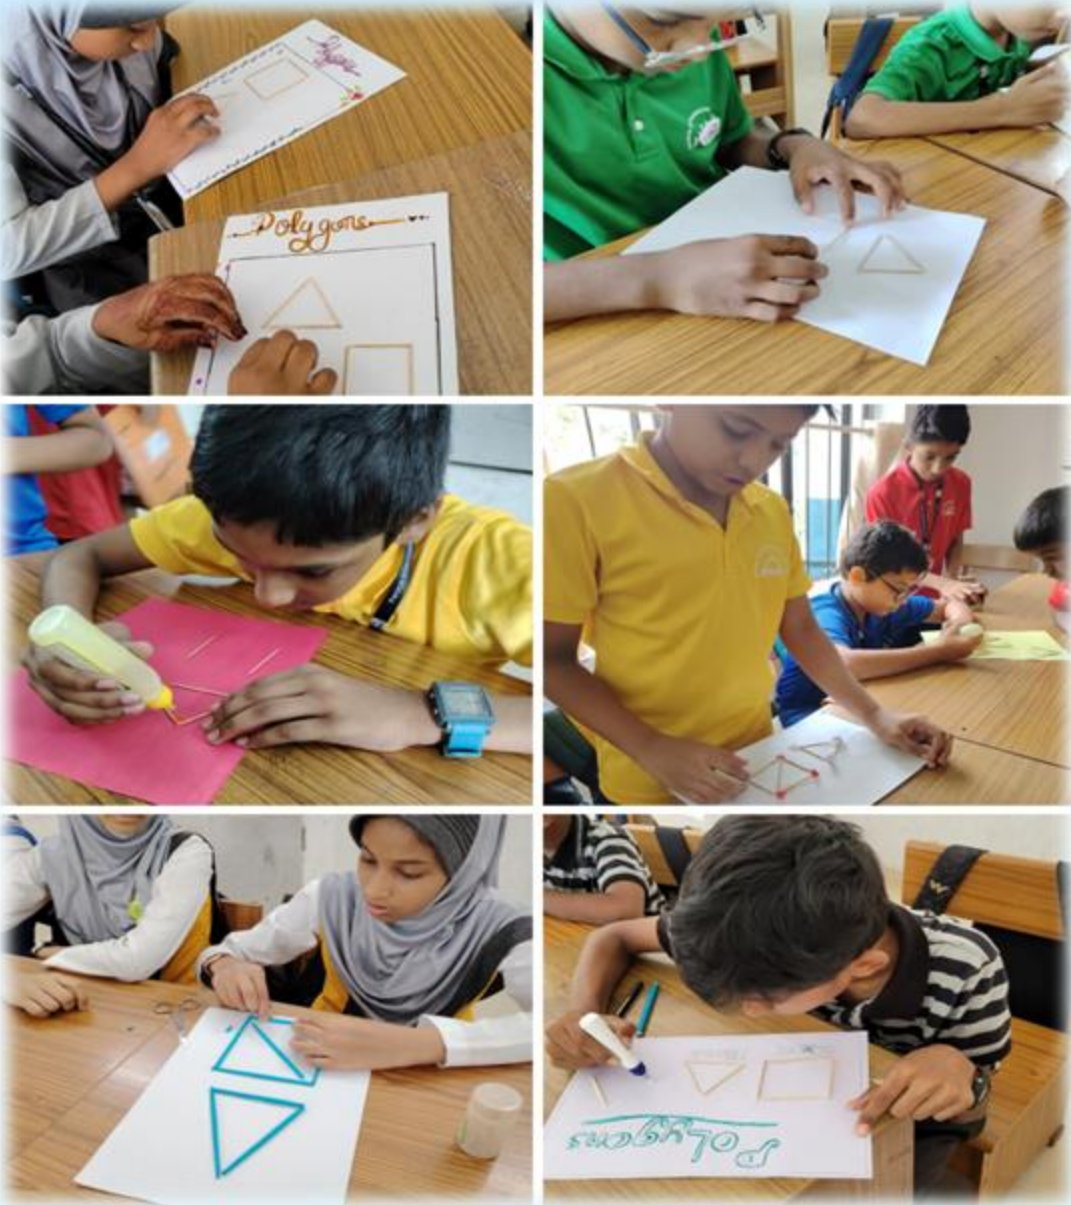

We can arrange the coloured disc in different ways and find out the factors of different numbers.

5

Polygons can be constructed in different ways by using a compass, scale etc. But we constructed it creatively using toothpicks.

6

We never knew placing rational numbers on the number line was so much fun and interesting. We learnt the concept so well.

7

Thank You!
