

An illustration of a young girl with long, straight red hair, wearing a teal long-sleeved shirt. She is holding a magnifying glass over her right eye and looking towards the right. Above her head is a glowing purple lightbulb with a yellow atomic symbol inside. A thick black line starts from the lightbulb, loops around the text, and ends at a beaker containing red liquid with white bubbles. The background is white with faint, light gray icons of various scientific and educational items like a microscope, test tubes, a globe, and a leaf.

# **PEACE INTERNATIONAL SCHOOL DEPARTMENT OF SCIENCE**

**CLUSTER 1 ACTIVITIES  
January**

# GRADE 1

Discovering the wonders of our body:  
Identifying body parts and learning about  
our sense organs

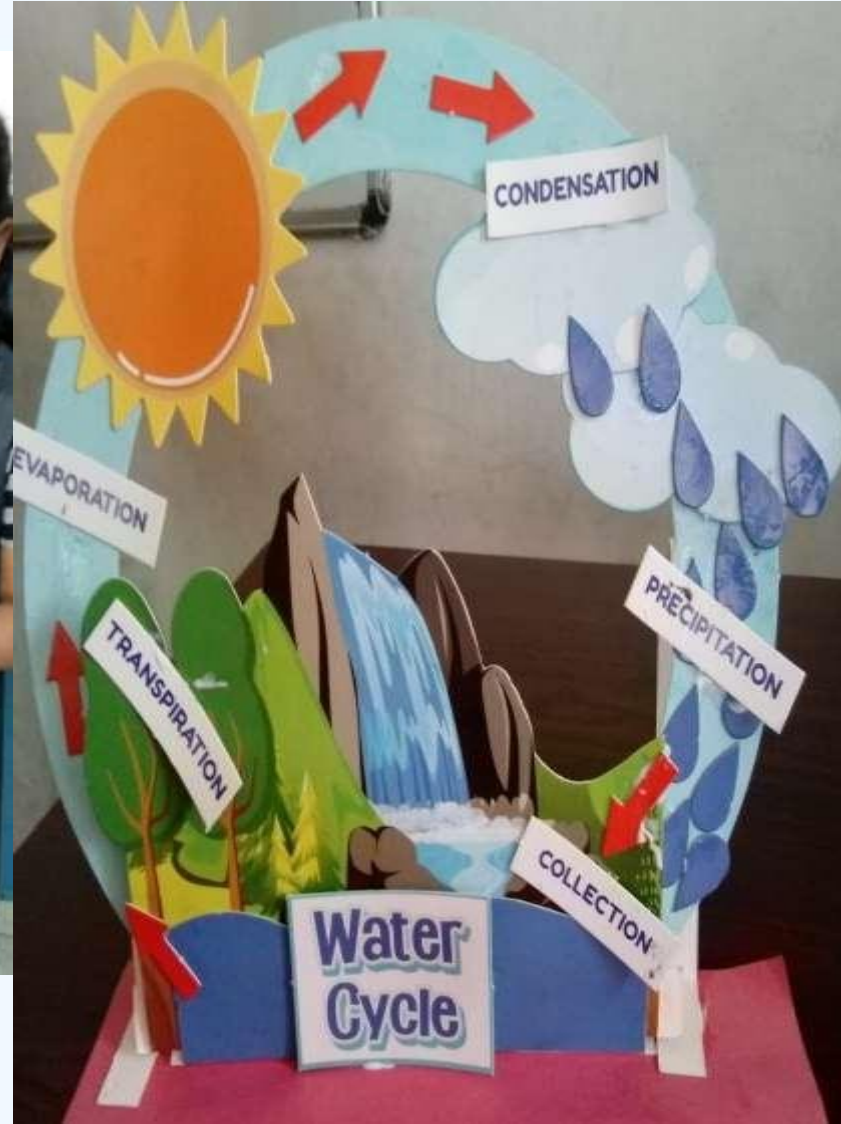

# GRADE 2

Exploring homes – students identifying and classifying the materials that are used to build our homes.

# Understanding the journey of water by making a water cycle model

GRADE 3

**THANK  
YOU**
