

PEACE INTERNATIONAL SCHOOL

Department of Mathematics

Grade-1,2,3

October activities

GRADE 1

Breaking it down to build understanding!
Grade 1 learners used place value blocks to
see subtraction in action — breaking tens,
taking away ones, and discovering how
subtraction really works!

Grade 1

GRADE 2

"When light is blocked by an object, a shadow of the object is formed."

Our enthusiastic Grade 2 students actively participated in the activity and were able to match the pictures with their correct shadows. 🌞 ✨

GRADE 3

Subtraction of 4-digit numbers with regrouping can be a challenging concept for Grade 3 students. However, our wonderful children made it easy and enjoyable by using place value

blocks! 🎉🌟
