INK YOUR RIGHTS

S.S- The Indian Constitution

ans. If I were to add one more ~~F~~ Fundamental Right to the constitution I would make sure that ^{fresh} water should be available for free in every ~~5~~ kms. This would ~~be a~~ make a huge impact on Indian development and empower empowerment as many ~~p~~ people in India die due to lack of access to safe drinking water.

Ahamed - Nooh.
VII - A

If I were to add one more Fundamental Right to the constitution, it would be the right to get a proper lawyer. This is because people who couldn't afford a lawyer to represent them at the court. People who couldn't afford a lawyer gets a public prosecutor who could easily be influenced by people of high status. Even if you have the right to constitutional remedies, you need someone to represent you at the court without partiality.

"Right to get a
Proper lawyer"

The Indian Contribution

(Qn) If you were to add one more Fundamental rights to the constitution, what would it be? Give reasons.

ans) Right to ~~of~~ against Drug abuse
As we all know one of the most
world future threatening substance
are drugs. This should be banned
as it ruins all humans of all
caste, creed and ages. It ~~not~~
destroys one's mind completely
3 ruining their focus. If
they did not use it, ~~once~~ their
ideas could have changed
the whole world. Drugs
lead to suicide, and other
life threatening situation.

The Indian Constitution	Hawwa Sufi
-------------------------	------------

Qn. If you were to add one more Fundamental Right to the constitution, what would it be? Give reasons:

- Free from Poverty

if I have a chance to add one more
Fundamental right it would be free from
Poverty. As many people are suffering from
poverty, it would be better, that if go the
government ~~on the~~ could help ~~from~~ people
struggling from poverty. Not only the
government it would be better, if we
~~could also~~ can also help them, by doing
charity. This will help prevent poverty.
Not only by doing charity, donating as
much as possible will also help.

GRADE 8 A

CREATIVE RIGHTS

ndamental Rights : Right to Opinion.
ndamental Rights : Right to more Job
Opertunites.

his fundamental right is important
cause more people are going away from
dia, the jobs here are less paying
other words more jobs are local and
ss jobs are important.

example:- A doctor is more important
India, it is also a hard job.

GRADE 8 B

Right to Privacy And Data Protection.

If I could add one more Fundamental to the constitution, it would be the Right to Privacy and data protection. In today's digital age, personal information is constantly collected and shared, often without consent. Protecting citizens' privacy is essential for safeguarding freedom, dignity, and security. This right would ensure that individuals have control over their personal data and that government and corporations are prevented from its misuse.

Right to Clear Water and Air

If I were to add one more Fundamental Right to the constitution, I would add the Right to Clear Water and Air, also known as the Right to a Healthy Environment. This guarantees a Safe, Sustainable, and non-toxic environment for all enforceable against both the State and polluting entities. This right is key to public health and Security, disproportionately benefiting women who often bear the burden of collecting clean resources.

Conservation Methods

protecting this right requires active conservation. Here are three crucial ways citizen can ensure water and air quality for everyone.

- Cycle, walk, or use Transit.

Rights Against Racism

I would add this "Fundamental right" because especially many children are facing many bad comments on their skin colour because of this many students tried to suicide. At many places are being teasing the people who has Brown Skin. This is also a part of cyber bullying. Many people are avoiding the people who has Brown Skin by staying this rule can move over Earth by maintaining unity and diversity. I would prefer this "Fundamental right" as Section 14 is help full for coming generation so I would prefer this.

STOP RACISM

"Right Against Killer/Murderer"

I would add this "Fundamental right"

because in India human especially women are raped and ~~murdered~~ by men.

In past ~~months~~ ^{year} a doctor was ~~stayed~~ ^{suspect}

by a ~~person~~ ^{person}. It was a very big thing at first everyone in the hospital was giving

strikes but in the end everyone forgotten the victim who was ~~raped~~ ^{raped} by surgical

scissors multiple times on neck and stomach by a suspect. And later

another doctor who was in a night ~~was~~ ^{was} raped and murdered. India doesn't

isn't very safe for both women and men.

But Dubai is very safe. Isn't it?

India has to look for cases fast and take actions.

Women Have the right to kill their Rapist

I am bringing this right because in India the no. of rape cases are more and justice is not served properly. And India doesn't have a rule that says rapers have to die or direct hanging without any warning for rapers. These rules should be there in a country according to me. So India doesn't have these kinds of rule then atleast women's should have the right to kill their rapist. I have seen that the government is taking any actions against them and many people have gotten away without getting punished and the government is saying that women's should not get out after 12 dark outside and I really feel like the government is not taking this matter seriously. And if people have money they bribe the judge or the police who are incharge and get away with it. Actually in my opinion the government suck really.

**THANK
YOU!**
